DAMAR ADI NUGROHO

FULL STACK DEVELOPER

Kulon Progo, Yogyakarta | damaradii.nugroho@gmail.com | 081910443084 | github.com/kayrinth

I am an enthusiastic individual with a strong passion for web development and graphic design. I enjoy collaborating with others and easily adapt to new environments, making it easy for me to connect with new people. Known for my hardworking nature, I strive to produce excellent work and continuously grow both personally and professionally.

EDUCATION

Bachelor of Information Systems (GPA : 3.92) **2022 - 2026**
Universitas Amikom Yogyakarta

Computer and Network Engineering **2019 - 2022**
Vocational High School 2 Pengasih

EXPERIENCE

Intern | Frontend Developer Dialogika **March - June 2025**

- Maintained and improved the company's main website by identifying, troubleshooting, and resolving bugs, as well as implementing feature updates to enhance performance and user experience.
- Developed a user interface for the article publishing feature using Next.js, enabling a more efficient and structured content management process.
- Collaborated closely with the development team during the internship, contributing to web development tasks and supporting overall project progress.

Bootcamp | Fullstack Web Developer Vocasia **Sep - Dec 2024**

- Completed a Full Stack Developer bootcamp, gaining hands-on experience in building web applications using HTML, Tailwind CSS, JavaScript, and React.js.
- Led the capstone project called GEMA (Gerakan Empati dan Amal), demonstrating leadership and project management skills.
- Collaborated with a team to develop a fundraising platform similar to Kitabisa, enabling users to create and support donation campaigns.

Bootcamp | Frontend Developer Lumoshive **Dec 2025 – Mar 2026**

- Completed a Frontend Developer bootcamp, gaining hands-on experience in building website ecommerce using HTML, Tailwind CSS, JavaScript, and React.js.
- Collaborated with a team to develop the frontend of an e-commerce website using modern web technologies.

PROJECT

GEMA (Gerakan Empati dan Amal) **https://github.com/gema-vocasia**
This website was my capstone project during the bootcamp, developed together with my teammates. It is a donation platform, similar to Kita bisa, where users can create or support fundraising campaigns

WashProg **https://washprog.vercel.app/**
WashProg is a web-based system that simplifies laundry service management by handling orders, tracking progress, managing customer data, and processing transactions in one integrated platform.
